Mr. Patrick CHOY Kwok Hung

A native of Taiwan but born and raised in Hong Kong, Patrick is a citizen of Singapore since the early 90's. Having served at various senior positions for decades, his last posting with Motorola Inc. before retirement in July 2003 was Senior Corporate Vice President. For the past decade he has served as the Chairman and Director of several listed companies as well as his own group of private companies. He had also been a consultant cum advisor to a number of major international corporations such as: Motorola, Bunge, Freescale, Temasek, Keppel and Nan Fung.

For his contribution towards the business and economy environment of China since the 80's, the Chinese Government appointed him as a member of the National Committee of Chinese People's Political Consultative Conference (CPPCC) in 2003, Patrick thus became the first appointed multinational corporation executive as a CPPCC member.

Outside his very busy schedule he still manages to find time in the pursuit of his favorite pastime of playing bridge; coming away with a number of national and regional championship titles. Patrick has represented Singapore and Hong Kong in numerous World Championship events. Patrick first demonstrated his skill as an administrator of bridge related matters having successfully organized the inauguration of the Hong Kong Inter-City Tournament in 1980, a widely popular annual international bridge event even to this very day. It was also of historic significance as the event also earmarked China's initiation into the international bridge scene. Under Patrick's continued guidance, the 1981 Inter-City Tournament generated a worldwide news sensation when representatives from Mainland China and Taiwan met for the very first time since 1949 over the bridge table.

As a further testimonial to his organization and administrative skills, he was appointed as a member of the Executive Council and various committees of the World Bridge Federation (WBF) in 1991 and elected to the important position of Vice President in 1996. Additionally, Patrick was largely instrumental in bringing the 1995 and 2007 World Bridge Team Championships to China. This was shortly followed by the First World Mind Sports Games held in Beijing in October 2008. Subsequent to that Patrick was given a major role in the planning and organization of the 2012 World Youth Championship in Taicang, China, followed by the 2013 World Team Championship in Bali, Indonesia and the 2014 World Bridge Series in Sanya, China. His contribution to bridge is not confined only to the realms of world championships, his tireless efforts in the promotion of bridge to schools, universities and youth communities have culminated in East Asia (Zone 6) being the youngest average age zone in the WBF. And through this, Zone 6 is fast becoming a most promising and significant zone in the WBF. In 2014 to recognize his important contributions to the development of bridge, WBF elected Patrick to the prestigious Committee of Honour.

Patrick is also a world renowned philatelist and a world stamp juror. In the past decade he has won ten gold and large gold medals in three different categories - Traditional, Postal History and Literature at various World Stamp Exhibitions. That too is a unique feat in the intricate yet expansive world of philately.
